Portfolio: nossaiba-elas.github.io/Site-portfolio-personnel | GitHub: github.com/nossaiba-elas

Willing to relocate for work

PROFESSIONAL SUMMARY

Recent Software Developer with hands-on experience building full-stack web applications using React, Angular, FastAPI, Python, Node.js, PHP/Laravel, MongoDB, and SQL. Developed and documented complete software projects from frontend to backend, including REST APIs, CRUD operations, debugging, testing, and technical documentation. Passionate about solving software engineering problems, writing clean and reliable code, and continuously learning new technologies. Seeking a full-time Software Developer position where I can contribute, continue learning, and grow within a collaborative engineering team.

TECHNICAL SKILLS

Frontend: React.js, Angular, Vue.js (Basic), JavaScript (ES6+), TypeScript, HTML5, CSS3, Responsive Design

Backend: FastAPI, Node.js, Express.js, Python, PHP/Laravel, ASP.NET MVC, C#, Power BI (Basic)

Database: MongoDB, MySQL, SQL Server

APIs & Testing: REST APIs, JSON, Postman, Swagger, Unit Testing, Debugging

Developer Tools: Git, GitHub, VS Code, Visual Studio, Jira

AI Development Tools: ChatGPT, GitHub Copilot, Cursor, Claude

Software Engineering: Object-Oriented Programming (OOP), Software Development Lifecycle (SDLC), Code Reviews

Cloud: AWS (Basic), Azure (Basic)

ADDITIONAL SKILLS

REST API Design | Software Documentation | Version Control (Git) | Problem Solving | Debugging | Technical Research | Clean Code Principles | Analytical Thinking

SOFT SKILLS

Problem Solving | Analytical Thinking | Fast Learner | Attention to Detail | Adaptability | Teamwork | Communication | Organization | Time Management

PROFESSIONAL EXPERIENCE

Product Clerk

Sep 2024 - Feb 2026

Metro Notre-Dame, Montreal, QC

- Assisted customers with product selection, answered questions, and provided recommendations
- Resolved customer concerns and complaints in a friendly and professional manner
- Maintained organized and visually appealing product displays to enhance the shopping experience
- Tracked inventory levels and updated stock records daily with attention to accuracy
- Collaborated with team members to ensure smooth daily operations and customer satisfaction

Technical Support Agent

May 2023 - Aug 2023

Sitel Morocco

- Responded to customer inquiries through chat and email while maintaining professional service standards
- Updated customer information and maintained accurate records
- Escalated complex technical and customer issues following established procedures
- Communicated effectively with internal teams to ensure timely issue resolution

ACADEMIC PROJECTS

Global Jersey Store – Full-Stack E-Commerce Application

Personal Portfolio Project | Next.js 15, TypeScript, Tailwind CSS, Firebase, Zustand, Vercel

- Designed and developed a complete e-commerce web application specialised in international football jerseys
- Implemented Google OAuth authentication via Firebase with protected routes and admin access control

- Built a full shopping flow: product catalogue, cart, wishlist, checkout, and order tracking (GJS-2026-XXXXXX references)
- Developed an Admin Dashboard with product management, order status updates, and sales analytics
- Managed application state across 4 Zustand stores with localStorage persistence (cart, wishlist, orders, products)
- Configured a CI/CD pipeline using GitHub Actions (lint + build) with automatic deployment to Vercel
- Applied mobile-first responsive design with dark/light mode toggle and premium UI inspired by professional sports retail
- Live: global-jersey-store.vercel.app | GitHub: github.com/nossaiba-elas/global-jersey-store

User Management System – Full-Stack CRUD Application

Academic Individual Project | FastAPI, MongoDB, React, Angular, JavaScript

- Designed, developed, tested, and documented a complete full-stack CRUD application using FastAPI, MongoDB, React, and Angular
- Built REST API endpoints to create, search, update, and delete user profiles
- Developed multiple frontend implementations connected to the same backend API
- Implemented profile image upload, search functionality, default avatars, and user profile management
- Tested, debugged, and improved the application to ensure reliability and maintainable code
- Published the complete project on GitHub with professional documentation and screenshots
- GitHub: github.com/nossaiba-elas/user-management-system

Health Management System

Academic Project | Laravel, PHP, MySQL

- Designed and developed a healthcare management system using Laravel, PHP, and MySQL
- Built relational databases and implemented CRUD operations
- Applied MVC architecture to develop scalable application features
- Produced UML diagrams and technical documentation
- Performed software testing, debugging, and validation to improve application reliability

EDUCATION

AEC - Web & Mobile Programming	2023 - 2026
<i>Institut Teccart, Montreal, QC</i>	

LANGUAGES

French | English
